📞 +20 10 1234 5678

## PROFESSIONAL SUMMARY

Passionate Computer Science student and Frontend Developer with a solid foundation in modern web technologies and problem-solving. Skilled in building responsive, user-centric web applications and turning creative designs into efficient code. Eager to continuously learn, contribute to real-world projects, and grow within a dynamic software engineering team.

## EDUCATION

**Bachelor of Computer & Information Science**
**Faculty of Computer and Information**
Focus: Software Development & Computer Science Fundamentals

## KEY INFORMATION

| | |
|---|---|
| **Location:** | Alexandria, Egypt |
| **Field:** | Frontend & Web Development |
| **Interests:** | Data Analysis, Fitness, Tech |

## TECHNICAL SKILLS & TOOLS

| | | | |
|---|---|---|---|
| HTML5 | CSS3 | JavaScript (JS) | C++ |
| Java | Git & GitHub | VS Code | Excel |

## KEY PROJECTS & ACCOMPLISHMENTS

### Restaurant Management System
**HTML5 • CSS3 • JavaScript**

Designed and built an end-to-end web system for restaurant operations. Features dynamic menu rendering, real-time item selection, order summary calculations, and intuitive customer navigation designed to streamline food ordering workflows.

### Data Analysis Dashboard
**JavaScript • Data Visualization • CSS Grid**

Created a responsive analytical dashboard to visualize key metrics, dataset performance, and trends. Implemented structured chart components and metrics overview cards to help users quickly interpret data insights.

### Personal Developer Portfolio & Contact Integration
**HTML • Modern CSS • JS Automation**

Engineered a dark-mode personal portfolio featuring smooth section transitions, skills showcases, and an automated contact form integrated directly with instant messaging APIs for real-time lead capture.
